

Risultati del secondo esonero di Analisi I - Meccanica (L-Z) del 4 - 2 - 22

NB:

Sono riportati, oltre al voto totale, anche separatamente i voti relativi alle domande a risposta chiusa e, se questo primo voto risulta ≥ 8 , anche il voto relativo alle domande a risposta aperta.

I voti **in rosso** sono quelli che non superano la soglia minima prevista (8 per risposta chiusa e 7 per risposta aperta) e che rendono la prova insufficiente.

I voti totali (tot.IIes.) sono relativi al superamento del II esonero.

L'ultima colonna riporta il voto totale risultante da entrambi gli esoneri
