

giovedì 24 settembre 2020 10:39

Dato E>0 Voglo travare 8>0 | \(\text{IX-0}=|X|\leq8 =) |X|-0= \(\text{X}\)
= |X|\leq8 = |X|\le

3-Algebra dei limiti. Continuità

giovedì 24 settembre 2020 10:40

f(x) $a \rightarrow b$ $hon = (a_1b) \cup \{x_0\}$

```
TEOREMA ( Permanenza del segno)

f: D > R antimo in xo E D e flxo) to. Allora

Albra, F 8>0 t.c. f(x).f(xo) > 0

V x ED (XXX) ED f(x) = f(xo) hound lo stato agno

Teoremo 2 (estranza degla zeri)

f: [AN] > R cont. se [a/b] (ingui ptod [a/b]) e f(a)-f(b) < 0.

[x] a x x b y

Albra F xo E (a/b) | f(xo) = 0

Albra F xo E (a/b) | f(xo) = 0

Albra F xo E (a/b) | f(xo) = 0

Albra F xo E (a/b) | f(xo) = 0

Teoremo 3 (Valori into smed)

F continuo su I intervello +> f(t) e un intervello -

(oscia F xo, xo into med)

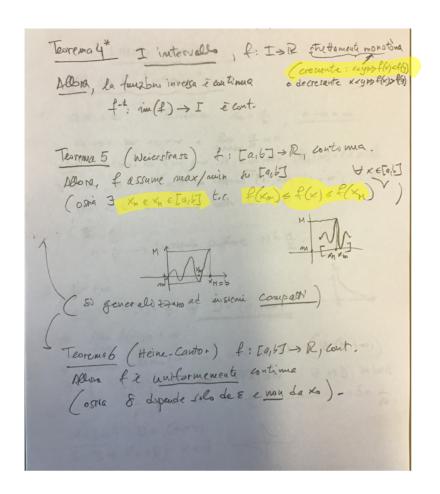

F costinuo su I intervello +> f(t) e un intervello -

(oscia F xo, xo into med)

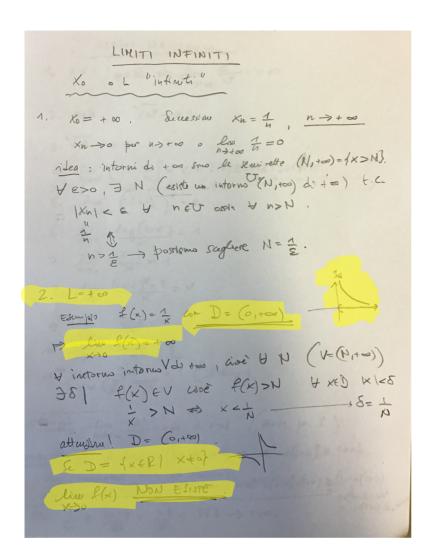

F assume titti i alan tin f(o) = 0 e f(h) = h²

F (To +co)) = [a/b) ( donico do Xxo)
```

5-Teoremi fondamentali... (cont)

6-Limiti infiniti

7-Limiti notevoli

```
LIMITI NO TENDUM

1. a>1, peR \Rightarrow line an = +\infty

2. peR, \sqrt{nP} \rightarrow 1

3. \sqrt{a} \rightarrow 1

4. line (1+1)^n = e = 2.718281828459065...

5. line (1+\frac{1}{x})^n = e

6. line (1+\frac{1}{x})^n = e
